01 About M3 Mobile

Speed is Power

M3 Mobile is a reliable partner to customers,
providing the quickest and most stable products
by directly handling all processes from design, development,
production to maintenance
M3 Mobile services to be the fastest partner
wherever their customer's desire

M3 Mobile Business Vision

Optimal support
- Prompt technical support and after-sales service Service package (optional – includes coverage for customer-caused issues)

Flexibilty
- Customization available based on customer feedback
- Professional development and possession of both general commercial Enterprise Mobile Computer specialized for cold storage

- Support for MDM (Mobile Device Management) setup and integration (SOTI equipped)

- Compatible with a variety of accessories (Cradle, boot, strap, case, gun trigger, protective film)

- Equipped with Enterprise Mobile Computer management solution (M3 Speed Pack) for efficient development support and enhanced security, allowing customers to use only desired applications

High Quality
- Low RMA rate
- State-of-the-art Enterprise Mobile Computer with top-tier specifications (Octa-core CPU)
- Latest Google GMS certification"

Price
- Competitive pricing with specifications equivalent to other brands

R&D
- Continuous development and launch of new products through proactive R&D investment"

M3 Mobile Test Lab

ESD Test

Equipment that can simulate and evaluate static electricity generated in the human body similar to the actual use environment

Tumble Test

Equipment that can delect damage or malfunction by randomly and repeatedly applying external shock to a product at a constant rotation speed at a height of 50cm /1M

Operating/ Storage Temperature Testing

Temperature testing conducted using controlled chambers to verify operational and storage limits.
Each condition evaluates booting, touch, scanning, wireless connectivity, and battery performance.

Drop Test

Equipment that can adjust height (20cm ~ 1.9M) and detect damage or malfunction by applying external shock to the product.

M3 Mobile Test Lab

IP Test
Equipment that can test IPX5 and IPX6 ratings

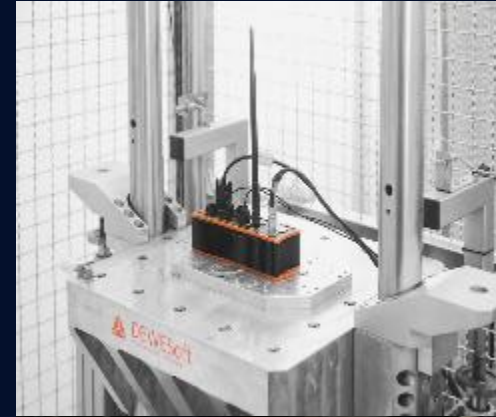

IP X5 Test

IP 6X Test

IP X7 Test

M3 Mobile Test Lab

Battery Charge / Discharge Test

Equipment that can automatically charge and discharge batteries and evaluate battery durability

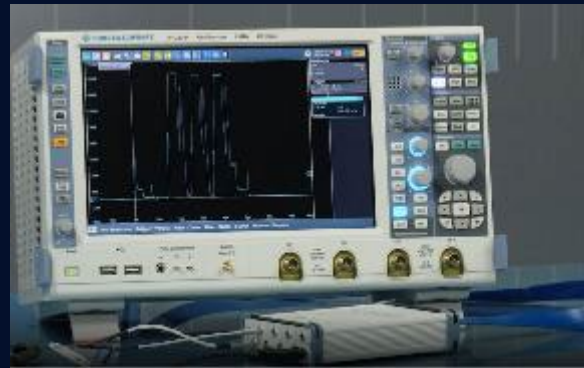

Durability Test

Equipment that can evaluate the durability of a product's printing and LCD surface by testing it at a constant weight load and speed.

Vibration Test

Testing is conducted using equipment that can simulate real-world environments such as transportation and vehicles.

Current consumption measurement test

Power equipment that can apply DC power to the terminal

M3 Mobile Partners

M3 Mobile has established partnerships with overseas solution companies that are difficult to find in Korea.
Anytime, anywhere, administrators can easily control and control the product.

SW updates, settings, management of business programs, and more broadly,
connection between servers and terminals can be easily provided with Mthree Mobile.

M3 MOBILE

Android Enterprise — Silver partner

Google-Verified Technical Expertise	• Certified personnel with training in Android Enterprise technologies • Specialized knowledge in OS/security updates, Zero-touch enrollment, and MDM integration
Early Access to the Latest Android Technologies & Policies	• Priority access to product updates and policy changes from Google • Participation in Android Enterprise beta and preview programs
Exclusive Technical and Marketing Support	• Access to Google's partner portal, technical documentation, APIs, and implementation guides
Capability to Deliver Customized Enterprise Solutions	• Tailored recommendations including AER-certified devices, MDM setup, and security configurations • Consultation services for Android-based custom app or device development

M3 Mobile, a Google Android Enterprise Silver Partner

In addition to being an official Google Silver Partner, M3 Mobile is fully certified with Android Enterprise Recommended (AER) across all products and has proven compatibility with leading global MDM solutions.

Technical Services & Maintenance

Fast and Reliable After-Sales Service

- Average repair turnaround within 4 to 7 days, minimizing operational downtime

- Comprehensive warranty service for all M3 products, ensuring quick response to any issues

Long-Term Paid Maintenance Program

- 3-year / 5-year maintenance plans available, covering even user-induced damage

- Ensures stable device operation throughout the product lifecycle

Annual Maintenance Subscription Service

- Flexible subscription-based support with yearly renewal options

-]Enables customized A/S management tailored to each business environment

End-to-End After-Sales & Maintenance Service

Fast repairs, long-term support, and flexible care plans—ensuring reliable operation throughout the product lifecycle.

M3 MOBILE

Beyond price. Beyond brand.
M3 Mobile lowers your TCO with smarter hardware,
tailored solutions, and trusted support

- 4,000mAh 6,000mAh (Option)
  - Hot-Swap Support
  - Hard pack battery injection molding
- IP67 MIL-STD-810H
- Expanded Slot User accessible MicroSD card supports up to 2 TB

ⓦ 77 x ⓗ 167 x ⓓ 12.9 mm

270g

Value-Oriented Performance

Equipped with a Qualcomm 2.4GHz octa-core processor and support for Android 16–18, the SM24 delivers modern performance with a more cost-efficient configuration making it effective for reducing TCO and well-suited for budget-focused logistics and retail environments.

Enhanced Readability and Usability with a 6 Inch HD

The 6-inch HD+ display reduces power consumption to improve battery efficiency while lowering overall costs, providing an optimized viewing experience for lightweight, app-focused tasks such as inventory checks and inbound/ outbound operations.

Front-Side NFC for Global Standards

The front-side (LCD-side) NFC supports ISO 14443 A/B, FeliCa, ISO 15693, and 13.56 MHz, ensuring broad compatibility with global NFC standards and enabling stable, efficient contactless workflows.

Flexible Connectivity & High-Capacity Storage

With versatile USB-C, robust POGO connectivity, and expandable MicroSD storage up to 2TB, the device seamlessly supports field operations from fast accessory connections to handling large volumes of data without interruption.

Upcoming Product Launch

SM25 X W

- 4,000mAh 6,000mAh (Option)
  - Hot-Swap Support
  - Hard pack battery injection molding
- IP67 MIL-STD-810H
- Expanded Slot User accessible MicroSD card supports up to 2 TB

M3 MOBILE

ⓦ 77 x ⓗ 167 x ⓓ 12.9 mm

TBD

Latest Performance and Long-Term OS Support

With Android 16 and upgrade support to 18, the SM25 delivers fast performance with its 2.4GHz octa-core QCM4490 platform, ensuring smooth operation of heavy workloads and complex applications across warehouse, distribution, and service environments.

High-Resolution Display Optimized for Outdoor Use

The 6-inch FHD+ display with Gorilla Glass 5 provides excellent clarity even outdoors, while glove-touch support ensures smooth operation in industrial settings such as outdoor deliveries or cold storage facilities where gloves are required.

Powerful Scanning & Battery Options

The SM25 offers fast, accurate barcode capture with CM60E and SE5500 Smart Focus options across near, mid, and long ranges ideal for high racks, moving packages, and narrow aisles. It also provides a standard 4,000mAh or optional 6,000mAh battery, allowing users to choose the power level that fits their workflow.

Rugged Durability Designed for Industrial Worksites

Passing 1.8m drop tests (with boots), 1,000 tumble cycles, and featuring IP67 rated protection, the SM25 withstands dust, moisture, impact, and extreme temperatures from -20°C to 50°C ensuring reliable operation without downtime in harsh industrial environments.

- 6,700mAh
  - Hot Swap Support
 - Hard pack battery injection molding
- IP67
- NFC
- 28/35/53 3 types Keypad

High Performance for Fast Data Processing

With its 2.7GHz high clock speed, the UL30 instantly processes scanned data, boosting efficiency. It minimizes waiting time in logistics, manufacturing, and warehouse management. Ideal for high-volume barcode scanning environments.

Long-lasting Battery for Reduced Maintenance Costs

The 6,700mAh battery provides extended usage, perfect for shift-based work.
Its long lifespan ensures uninterrupted operation. Fewer battery replacements help reduce maintenance costs.

Complete Dust and Water Resistance

With an IP67 rating, the UL30 withstands dust, water, and impact in harsh environments.
It performs reliably in warehouses, factories, and outdoor sites exposed to chemicals and metal particles.
Ideal for construction sites with frequent dust, rain, and shocks.
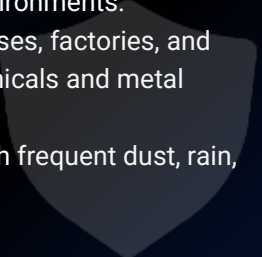

F Model for Cold Storage Environments

The UL30 F (Frozen) model operates reliably from -30°C to 60°C and withstands storage from -40°C to 80°C. Its low-temp-optimized battery ensures stable performance in freezing conditions.

ⓦ 78.5 x ⓗ 161.64 x ⓓ 17.5 mm
297g

High Performance for Fast Data Processing

It supports Wi-Fi 6E (802.11ax) with speeds of up to 9.6Gbps, delivering 40% faster wireless performance compared to Wi-Fi 5 (802.11ac). It also supports 2G to 5G for fast data transfer and stable connections with multiple devices.
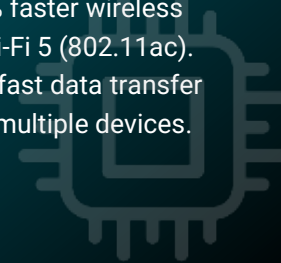

All-Day Long Battery Life

The SM30 offers up to 24 hours of battery life, enabling stable operation without replacements and reducing downtime and costs.
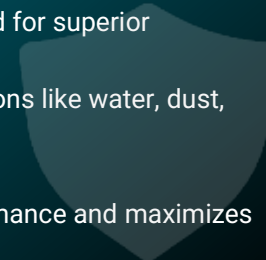

Exceptional Durability, Reliable Performance in Extreme Environments

This Enterprise Mobile Computer is IP68-rated and MIL-STD-810H certified for superior durability.
It withstands harsh conditions like water, dust, and shock.

This ensures stable performance and maximizes efficiency in the field.

Beacon & Bluetooth 5.3 for Seamless Tracking and Enhanced Security

The SM30 enables real-time asset and logistics tracking without Wi-Fi or GPS using Beacon technology.

| NFC Tap, Scan to pair	1000mAh	IP65

Zero-Second With Boot	Designed for efficiency with one-touch battery removal — no tools needed

New Product

Excellent scanning performance

The WR15 delivers enhanced performance with two scanning options: a high-performance 2D engine and a Smart Focus scanner. It enables flexible scanning from 5.6 cm to 14 m, offering outstanding versatility.
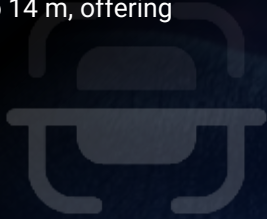

Large-capacity battery

The WR15 is equipped with a battery that offers 20−30% higher capacity compared to competitors, while maintaining a lightweight and ergonomic design, making it ideal for extended use.
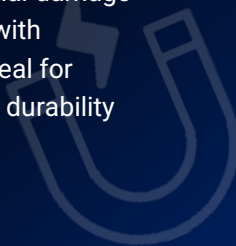

Seamless Bluetooth Support from Classic to BLE 5.3

With support for Bluetooth 5.3 along with Classic (BR/EDR), the device offers excellent compatibility. It ensures stable and high-speed connections with scanners, printers, audio devices, and more—making it ideal for industrial environments that demand both performance and flexibility.
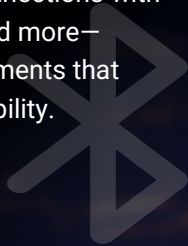

Magnetic Battery Lock

The magnetic battery mounting system replaces traditional, fragile locking mechanisms. It prevents potential damage and inconvenience associated with conventional locks, making it ideal for hands-free environments where durability and ease of use are essential.

Steady Seller

Bigger and Clearer with a 10" FHD Display

With high resolution (1920×1080) and a bright LED back light, product information stays sharp and easy to read in any store environment. The large 10-inch screen delivers a clear, intuitive viewing experience for customers.
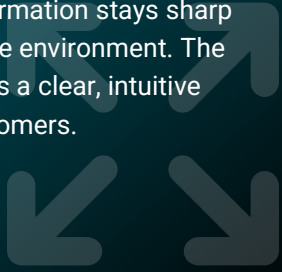

Versatile Connectivity and Exceptional Expandability

Equipped with 3 USB Type-A ports, 1 Type-C, and Gigabit Ethernet, it adapts easily to various environments. MicroSD expansion and PoE (RJ45) support enable both power and data transmission for simplified installation and operation.

Powerful & Stable Performance

Octa-core CPU and Android 13–15 support deliver speed, security, and scalability.
4GB RAM and 64GB storage ensure smooth operation in any environment.
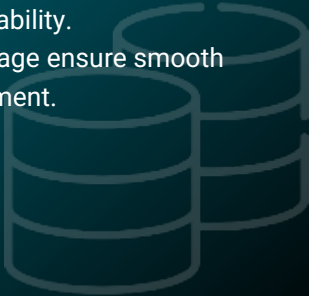

Smarter Customer Engagement with Front Camera and Dual Speakers

The front camera and dual speakers enable intuitive communication, enhancing the customer experience and supporting purchase decisions.

M3 Secure

Since two more years of support after EOS is announced, it reduces security risks and extension of the life span of the devices.
M3 S3CURE Updates are available on the ITC site and after downloading it distributes updates to devices with MDM solutions.

[M3 OTA - APP MANUAL - M3 TechDocs](#)

APP_StartUp
It is an easy-to-use Provisioning tool

WEB_StartUp
An easy-to-use web provisioning tool

App Center
It is a tool that can set up kiosk mode

M3 OTA
Allow user to update OS versions with minimal

Battery Checker
You can check battery information

HotSwap (SM15)
Replace the battery while the device is not shut down

M3 Speed Pack
Supports Multiple M3 Solutons

ScanEmul
You can control data capture functions

Key Tool
HW button mapping is possible

Heat the Wire (UL20F)
Keep the LCD screen warm with LCD back heater

LR ScanEmul (SM15/SM20)
Set up the long range sacnner

**UHF Emul** (SM15/SM20)
Set up the RFID gun scanner

WR10 ScanEmul
Managing and Connecting to the WR10

M3 Startup

Complex device setups, simplified with just one QR scan. M3 Mobile Start Up is a smart configuration tool that enables fast and consistent setup of dozens of M3 Mobile devices. This free solution requires no installation and helps improve operational efficiency and productivity.
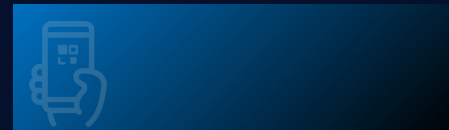

[M3 Startup]
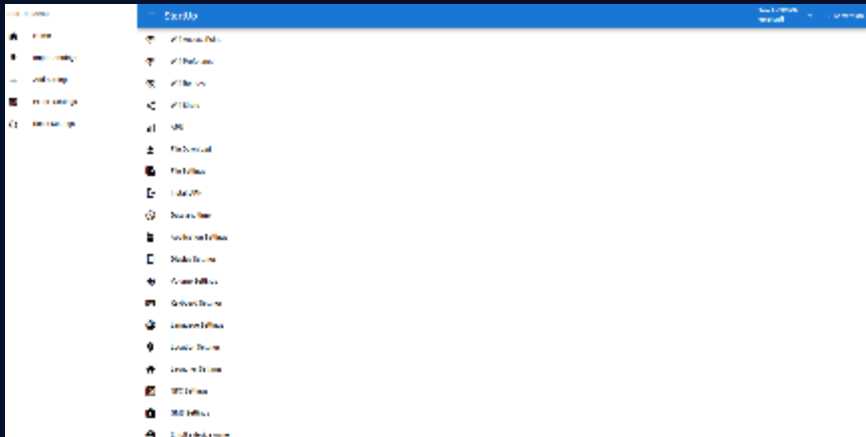

Developed as a web-based solution
*Built on a web-based platform*

Easy Access Anytime, Anywhere

Accessible anytime, anywhere with just a web browser.
No installation required → Minimizes training and deployment effort.

Fast and Consistent Mass Device Configuration

Configure dozens of M3 devices simultaneously with consistent settings.Even complex setups can be completed with a single QR scan.
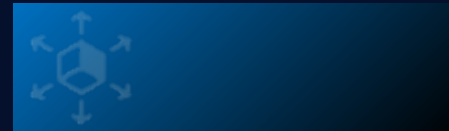

Fewer QR Codes for Faster and Simpler Setup

Optimized and compressed data enables fewer QR codes for the same configuration.Reduces scanning time, minimizes errors, and improves field efficiency.

Enhanced Stability and Security with JavaScript Based Architecture

StartUp Web is built on a modern JavaScript-based architecture and secured with HTTPS, providing a stable and secure environment for provisioning.

Simplified Maintenance and Deployment

Centralized server updates eliminate the need for user-side installation or patching.Always up to date with the latest features and settings.

High Scalability and Flexible Customization

Supports tailored configurations to fit various business environments.Seamless integration with MDMs, APIs, and external systems.

Solution _ Application

M3 Speed Pack

M3 SPEED PACK™ is M3 Mobile's proprietary solution that simplifies the configuration and management of multiple devices, ensuring efficient enterprise-level deployment.

Usability
Provides device introduction tools

**LR ScanEmul
(SM15/SM20)**
Set up the long range sacnner

**UHF Emul
(SM15/SM20)**
Set up the RFID gun scanner

M3 Mobile Warranty & Service Information

A basic warranty period

| Device | 1 year |
| Accessory | 6 month |

※ *The warranty period starts from the date the product is delivered to the end user.*

Extended Warranty Service

Options	3-year / 5-year extended service plans
Application Period	Within 45 days from the start of the basic warranty
Further Extension	Additional extension may be available if the intention is communicated before the warranty expires. Availability will be confirmed separately.

Service

M3 Mobile Service Package

Standard warranty
1year
(1 year terminal, 6 months accessory)

- ITC Web Support
- Help desk Support
- Includes technical support
- Repair in approved M3 Partner Service Centers and M3 Service Centers
- 1 year warranty from the date of terminal delivery
- Accessories 6-month warranty
- Battery 6-month warranty
- 14 days repair time
- Damage to accessories and terminals due to self-fault is not supported
- Contract is not required (automatic conclusion of service from the time of delivery completion)

Service Package
3Year

- ITC Web Support
- Help desk Support
- Includes technical support
- Repair in approved M3 Partner Service Centers and M3 Service Centers
- 3 years warranty from the date of terminal delivery
- Accessories 6-month warranty
- Battery 1 year warranty
- 7 days repair time
- Support for repair of accidentally broken or defected terminal
- Contract required
- Total Damage (3 or more than 3 of 4 main parts damaged) cannot be compensated or repaired

Service Package
5Year

- ITC Web Support
- Help desk Support
- Includes technical support
- Repair in approved M3 Partner Service Centers and M3 Service Centers
- 5 years warranty from the date of terminal delivery
- Accessories 6-month warranty
- Battery 1 year warranty
- 7 days repair time
- Support for repair of accidentally broken or defected terminal
- Contract required
- Total Damage (3 or more than 3 of 4 main parts damaged) cannot be compensated or repaired

Key Selling

| Customer Interaction | Easy and Accurate Deployment | Labor and Error Cost Reduction | Ultra-low Power Consumption | High Durability | Ultra-thin Profile | Integration with Existing Systems |

Cost Effectiveness

- Lower cost compared to on-demand models
- Reduced maintenance expenses

Manageability

- Centralized data management for single or multiple users

- Supports operation and maintenance of user-local connected platforms

- Intuitive, user-friendly interface for easy operation

Security & Reliability

- High availability and robust security'

- Supports system localization or private cloud deployment

- Compatible with both Windows and Linux platforms
